

REVOLUTIONIZING
BIOREGENERATION

REVO SHIELD®

Amniotic Barrier & Discs

RevoShield® Amniotic Disc

Derived from the amniotic membrane of a placenta, RevoShield® Amniotic Disc is a dehydrated human amniotic membrane allograft that is natural and non-steroidal. RevoShield® Amniotic Discs can be used for post-op recovery, as a covering or barrier when applied to the ocular surface, following repair and reconstruction procedures in the treatment of ocular disease and/or abnormalities. RevoShield® Amniotic Discs are available in both single layer (RevoShield) and dual layer (RevoShield+) discs.

Dual Layer Product List

Part Number	Description	Size
RBA2001FD	RevoShield®+ Amniotic Disc	8 mm
RBA2002FD	RevoShield®+ Amniotic Disc	10 mm
RBA2003FD	RevoShield®+ Amniotic Disc	12 mm
RBA2004FD	RevoShield®+ Amniotic Disc	14 mm
RBA2005FD	RevoShield®+ Amniotic Disc	16 mm

RevoShield® Benefits Include:

-  **Protective covering**
-  **Stores at room temperature**
-  **Five year shelf life**
-  **Bi-directional**
-  **Easy to apply**
-  **Ultra thin and comfortable**
-  **Various sizes in Single layer and Dual Layer**

Single Layer Product List

Part Number	Description	Size
RBA2002FD-S	RevoShield® Amniotic Disc	10mm
RBA2003FD-S	RevoShield® Amniotic Disc	12mm
RBA2004FD-S	RevoShield® Amniotic Disc	14mm
RBA2005FD-S	RevoShield® Amniotic Disc	16mm

The RevoGen® Difference

At RevoGen® Biologics we are committed to making lives better through cutting-edge biologics. Following time-tested rigorous guidelines and delivering quality products and services to our clients is our number one goal. We are dedicated to providing the highest-quality biologics products throughout the United States. We offer our services to the medical community and patients in order to improve quality of life. Our products meet the highest statutory, professional and legislative requirements. Through new processes and many advances in biotechnology, RevoGen is revolutionizing bio-regeneration to offer the highest quality biologics in the market to our physicians for their patients.

Tissue Processing

RevoGen® Biologics and our strategic partners follow rigorous guidelines and procedures to preserve allografts for their intended use. The allograft tissue recovery process begins after a prospective donor has passed our stringent screening process. Highly trained technicians operate in state-of-the-art designated clean rooms to process and prepare donor tissue. **Our dedicated team is committed to providing the highest quality allograft tissue available** and our thorough screening process is designed to ensure only uniform, high-quality donor tissue is recovered and processed for distribution.

Quality Assurance

RevoGen Biologics' goal is to serve our patients and physicians with the highest quality biologics products available. Along with our strategic partners, we adhere to strict policies and detailed standard operating procedures in all facets of the donor screening and tissue recovery process. Frequent policy updates assure that all procedures are current with all applicable standards and regulations. Routine quality assurance audits are performed on all processes and procedures, both internal and external.

Solutions to support the treatment of ocular surface diseases and disorders

Clinical applications:

- Corneal Ulcers
- Chemical burns
- Dry Eye Syndrome
- Infectious Keratitis
- Neurotrophic Ulcers
- Filamentary Keratitis
- Exposure Keratopathy
- Pre-Cataract Optimization
- Recurrent Corneal Erosion
- Salzmann's Nodular Degeneration
- Post-DSEK for Bullous Keratopathy
- Neurotrophic Persistent Corneal Epithelial Defect

Relationships

At RevoGen Biologics we understand the need for stringent donor screening, rigorous procedures, and the highest quality tissues, but we also know the importance of relationships. In addition to providing high quality products, we want to make sure that our clients have the most optimal experience throughout their interaction with RevoGen Biologics. If problems do arise, we will work with our physicians to resolve the issue quickly and efficiently. We want to set industry standards in product quality as well as customer relationships.
